

Career & Alumni Center Magazine 2021 Repor

#### **Testimonials**

The CAC requested from its students & Alumni many testimonials to see the impact of SMU on their career path, as well as some recruiters feedback

- Our objective is to promote our Alumni and students on the job market. Our community is a source of pride, and our goal is propelled in terms of notoriety in relation to their success and their achievements. All this through the posts on our CAC LinkedIn and our social networks.
- o Various positive feedback has been received since the beginning of our university's journey.
   SMU is always offering numerous programs that are internationally recognized. With different accreditations our campus always provides opportunities to students from any place around the world.

Not only does SMU follow and encourage you during your studies, but also through your professional career as well. Furthermore, national and international opportunities are always provided for students and alumni.

Also, multiple training courses are organized throughout our students' educational path to teach them skills that will enable them to behave professionally in the workplace.

#### Meet our Alumnus of the Month: Ali Abdelhakim Aburaqiqa

Ali Abdelhakim Aburaqiqa (MBM FIN cohort 2019)

#### **Testimonials of the Month:**

#### Meet Our Scholarship Awardee

The SMU Foundation has been investing in young potential and providing on merit 3 diverse types of scholarships to help students integrate SMU for either MSB or MedTech program. The Foundations is managed by Ms. Nadia Kallel who's taking charge of aid for potential candidates from early application to when accepted and throughout their journey at SMU. Huge efforts are made to make this organism a success and pride of the SMU community.

## Meet our EMBA Students & Alumni

#### Meet our 100% Students & Alumni

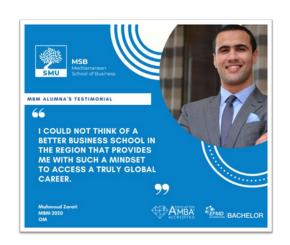

#### Meet our MBM Alumni & Students

#### Meet our UPM Students & Alumni

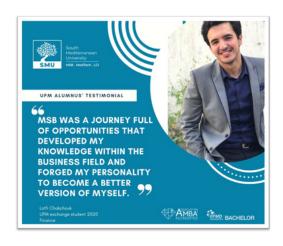

#### Meet our HEC Students & Alumni

## Meet our MedTech Students

#### **MedTech Project Day Testimonial**

At MedTech, we organize on annual basis an event called "MedTech Project Day" which is an opportunity for our future engineers to show their innovative projects and present in front of different parties their work, exchange around various aspects of the project.

#### Meet our SMU Entrepreneurs

SMU is considered one of the great accelerators for entrepreneurship by supplying mentorship, necessary skills and the right network to help its students and alumni shine bright and achieve their full professional aspirations. Too many students and alumni decided to embark on an Entrepreneurial journey entrepreneurial to hear from them and celebrate their achievements.

#### **EMBA Entrepreneurs**

MBM Entrepreneurs

#### **UPM Entrepreneurs**

#### **MedTech Entrepreneurs**

## Get to know our students' professional experiences

Part of our academic programs are compulsory internships, where students get to meet real-world needs, issues and learn by doing. We, as we work actively on promoting employability and secure employment to our students and alumni, make sure to hear about their experiences, supply guidance and mentorship when needed, from looking for opportunities, resume proofreading, and intervening when a problem occurs.

#### **MSB Interns**

#### **MedTech Interns**

#### **SMU Associations**

One of SMU's unique features is its vibrant student life with 27 active associations working side by side to improve our community. Student life is managed by Ms. Mariem Ben Aissa to keep everything organized and follow specific processes to guarantee efficiency and productivity.

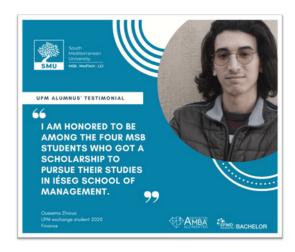

## Exchange student's testimonial

What makes the academic experience at SMU a unique one is the diversity and plenty of opportunities offered to enlarge our students' knowledge and their gaining on both professional as well as personal levels. One of these opportunities is the exchange programs offered by our international studies department with its director Ms. Tracy Olson where we offer too many exchange opportunities abroad with different sophisticated partner academic institutions.

#### **Meet our Recruiters**

As our main goal as a career center is bridging between the academic and professional communities, it is crucial to us to have the feedbacks of recruiters, with surveys launched in summer during the internship of our SMU students and during the PFE internship to better understand the requirement of the Job Market and that we collaborate with Lead of departments to update syllabus based on international & national feedbacks of recruiters.

#### Medtech recruiters

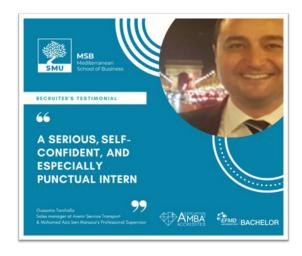

#### **MSB** recruiters

#### **SMU Guest Speaker events**

The Career Center of SMU always keeps track of guest speaker events. Multiple speakers from different fields share their knowledge with students in organized events. With interaction between students and guest speakers about different topics, it is inevitable that productivity hits and maybe even both ways.

#### **WeRebase Info Session**

WeRebase is an online platform that lets African students and fresh graduates build up their portfolios by practicing on miniprojects with which they can apply for remote jobs and internships at early-stage European startups. In fact, getting an internship or job is already hard enough with experience, getting it without one is practically mission impossible. Or so some would say.

In this session students discovered how to increase their chances of getting the job or internship they want and got closer to kick starting their careers.

This info session was attended by 45 students in total, 37 students from MSB and 8 students from MedTech. As a hybrid session, 17 students were on campus while 28 were online connecting via MS Teams.

#### **Ultra-Mirage Inspirational Talks**

Amir Ben Gacem joined us to talk about how the idea of starting Ultra Mirage El Djerid manifested and how he started it in Tunisia. He will also mention the challenges the team faced and how they managed to overcome them. Our guest also talked about the Race's 5th Edition. In fact, Ultra Mirage El Djerid 100Km's Race series is the first race taking place in the stunning Tunisian Sahara Desert. The organization's values are: The Values: Gender equality, Sustainability, Inclusivity, Plastic-free goodies.

The Event is organized in the Djerid region every first weekend of October. International runners and visitors can also take part along with the locals. Both 100km and 50km single stage races take runners across a wide diversity of terrains, ranging from soft sand, small dunes, rocks, dried riverbeds, oasis... In 2020, 300 runners took part, a third of whom came from abroad and had 20 different nationalities. For the 5th edition, the challenge for the runners is to do 2 laps of 50 kilometers. Chott El Djerid is 5000km square, one of the largest salt lakes on earth, the largest in North Africa and the Sahara, a space that makes you dream.

This inspirational talk was attended by 152 students in total, 76 from MSB students and 76 students from MedTech. As a hybrid session, 53 students were on campus and 99 were present online via MS Teams.

#### **Edutest Saeed Zarrouk Inspirational Talks**

We were pleased to invite the CEO of Edutest with us on Campus to talk about his startup.

Saeed Zarrouk is a Tunisian American Forbes 30 under 30 entrepreneur, FIFA Agent, author, and one of the most accomplished students of the African Leadership Academy, programs at Yale and Harvard University, as well as Bocconi University. During his academic years, Saeed excelled in his studies keeping a 4.0 GPA while pursuing his path in leadership with an entrepreneurial spirit that opened the doors to the creation of his new initiative: the Edutest Group. Today, the Edutest Group is a group of social and Ed-Tech focused companies that advocate and enhance access to quality education by finding, empowering, and connecting students to scholarship foundations and financial aid at both the high school and university level. Edutest aims to open doors of education for students from the Middle East and Africa.

This inspirational talk was attended by 108 students in total, 54 students from MSB and 54 students from MedTech. As a hybrid session, 65 students were on campus while 43 were present online using MS Teams.

#### Advocate your cause, be the change - Souhaieb Khayati Inspirational Talks

Mr. Souhaieb Khayati, North is the Africa Office Director, Reporters Without Borders.

With 18 years of experience in the field of development cooperation, Souhaib Khayati has built an ability in supporting democratization processes. He got his experience in Tunisia (RSF and Swiss cooperation) and in several West African countries: Mali (Inter-peace). Burkina, Côte d'Ivoire and Niger (Italian development cooperation). For the past 10 years, he has led programs in support of journalism, the media and freedom of information. From 2012 to 2017, he handled the two phases of support to Radio Tunisienne (RT) in its transformation from state media into a true public service media implemented by Foundation Hirondelle. He also led RT's institutional reform support project, which was finished to develop its strategic corporate vision. In 2018, he successfully conducted negotiations with the cabinet of the Tunisian President to obtain his country's support for the Declaration for Information and Democracy launched within the framework of the Paris Peace Forum on the initiative, by RSF. During the Tunisian general elections of 2019, he was at the origin of RSF's initiative to engage the main candidates and political parties to protect and strengthen the fundamental right of citizens to free and independent information.

This inspirational talk was attended by 90 students in total, 32 students from MSB and 58 students from MedTech. As a hybrid session, 44 students were on campus while 46 were present online using MS Teams.

### SMU annual job fair 2021 8th edition

The eighth annual job Fair took place at MSB-MedTech campus on November 17th, 2021, under the theme of « Rethinking Tunisia's Economic Recovery » Faced with the Covid 19 pandemic and its consequences, relaunching is at the heart of our concerns, so let us give ourselves the means to debate it, to share our ideas, our vision to talk about our Added Value and our trajectory towards performance.

This year's edition counted 649 participants, which is a remarkable evolution compared to the previous editions. From a total of 648 check-ins for the D-day job fair event, participants had different profiles between SMU (MSB + MedTech) students and Alumni and external participants from other institutions. The dominant category is MSB students with 71.2%, then MedTech students with 19.9% and then external participants with 6.6%. Other profiles as grads and alumni figure but with negligible percentage.

For the category of 600DT-1200DT, 32.1% of them represent people looking for an internship and still studying. 27.9% of the total are looking for networking, 16.9% seeking a job, 16.9% are looking for an end of studies internship.

As for the category of +2,000 DT, 29.9% of them are coming for networking,24% are looking for a regular internship, 20.4% of them are looking for an end of studies internship which means they are currently studying and soon entry level for job positions.

The male gender presented 55.6% of the platform visitors and females were less to do so with 44.4%. The age group that most visited the platform is: 18-24.

#### "Finding a Job is a Job" with Jalila Ben Soltane

Our guest Ms. Jelila BEN SOLTANE has animated a one-day event with high-quality mentoring when it comes to resume reviewing, elaborating resume, and tips on how to catch opportunities. The workshop was a great opportunity for our students as well as alumni to enlarge their knowledge and share about this matter.

This workshop was attended by 53 attendees, 47 students from MSB, 1 Alumnus from MSB, and 5 students from MedTech. Most of the attendees at the Tunisia Jobs USAID workshop were 91% of MSB students and only 9% of the MedTech students

#### "Insomnia" Inspirational Talks, with Nabil Youssef

Our guest for the inspirational talk event was Mr. Nabil Youssef: "CEO & Founder at INSOMEA Computer Solutions. INSOMEA is an IT service company that supplies cloud solutions. Founded in 2016, the company became a Microsoft Cloud partner in 2018. Their solutions are supported by rigorous, proven tools, methodologies based on ability, innovation, and technical ability. Their aim is to challenge Normal for a better world."

It was an insightful event where our students got to meet Mr. Nabil, share thoughts, inspire from his great experience, and exchange about the major role of IT in shaping our future.

This event opened the gate for collaboration between SMU and Insomea on employability purposes through "insomnia academy" by providing internship opportunities for students and Microsoft certification offers.

This event was attended by 57 attendees, 36 students from MSB and 21 students from MedTech. Students from the MSB had a higher rate of attendance in the Insomea workshop 63% than the MedTech students with 37%

#### Fadwa Bouguerra: "Why should I be hired? Join us to decode your future endeavors" Public lecture

Our workshop organized for the job fair this edition was with Ms. Fadwa Bouguerra, a PhD in Trauma studies in Literature and Cognitive studies with a concentration on confessional poetry, life narratives, and storytelling. She is a Tunisian female activist and women's rights advocate. Fadwa is the Vice President and executive member of the International Institute of Debate in charge of communication and development. She received her MA degree in American Literature with a concentration on women's and gender studies from the University of Kairouan. She is a Fulbright Alumna at Bennett College for Women and a specialist coach in corporate and professional communication. She conducted field research on Rural Women and their contribution in electoral campaigns with I WATCH and worked on a scrupulous examination on CVE &PVE (counter and prevent violent extremism) respectively with IIDEBATE."

This workshop was dedicated to students to help them stand out within the hiring process, learn tricks and techniques on how to promote oneself in a highly competitive market.

This workshop was attended by 28 attendees, 21 students from MSB, and 7 students from MedTech. 75% of the attendance in the workshop "Why should I be hired? Join us to decode your future endeavors" were MSB students while MedTech students represented only 25%

## Job Fair

South Mediterranean University

MSB . MedTech . LCI

8th Edition
"Rethinking Tunisia's economic recovery"

### Job Fair, Wednesday 17th of November 2021

We succeeded to collaborate with 22 sophisticated companies from different fields of activity to come to campus for an entire day of networking with students, offering their employability opportunities, listening to their needs, and helping bridge the gap between the academic and professional worlds. The companies that took part in our event had to choose between different sponsoring packs, each with specific details related, the highest is the "Platinum" of 2000dt, then the "Gold" of 1500dt, then the "Silver" of 1000dt, and finally the "Bronze" of 500dt. This day marked the presence of more than 650 students and opened the gate for building long-lasting trust-based relationships with these companies.

#### Insights of the conference

Covid19 has shaped our future in a way we never imagined before, made us question our current practices, and wonder about our next steps. And because we highly believe in our network combining the potential of our students, alumni, our industrial partners, and plenty of other sophisticated collaborators, we are offering you the opportunity to debate, share visions and ideas about this matter. This year's edition will be under the theme of "Rethinking Tunisia's Economic Recovery",

This conference provided delegates with a unique opportunity to take part in one of the most intelligent debates, share ideas, explore solutions, and consider the future.

This conference was attended by 50 attendees, 37 students from MSB, one MSB Alumni and 12 students from MedTech.

# Technical Tools workshop: "How to succeed an interview process?" with Montassar Ben TILI

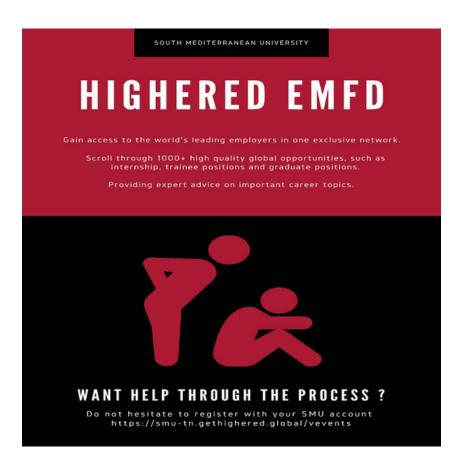

The last workshop within the program of our annual job in its 8th edition is Technical Tools workshop: How to succeed in an interview process? This workshop was dedicated to our Medtech Engineering students for technical tricks on how to succeed in an interview process with the mentorship of Mr. Montassar Ben Tili, an entrepreneur whose business and visionary instincts have carried multiple companies through fast and stable growth. He has more than 17 years of international experience in training, sales, and strategy development in different fields of industry including Telecom, Entertainment, Healthcare and Education. Montassar holds an MBA from the Sorbonne Graduate Business School (Paris, France) and master's degree in Electronic Engineering from Polytechnic (Grenoble, France). In 2015, he created his own consulting firm offering services to multinational companies, including Carestream, Vamed and most recently Ulrich and General Electric, where he has achieved outstanding personal and team results. In 2016, he joined the team of certified British Council trainers to deliver high quality face-to-face and online trainings for teachers and leaders."

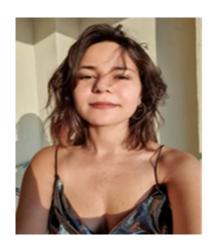

This event was about exchanging knowledge, hearing our students' concerns and fears, and boosting their self-confidence when going through interviewing.

This workshop was attended by 16 attendees, 11 students from MSB, one Alumumni, and 4 students from MedTech. Even though the workshop "Technical Tools workshop: How to succeed in an interview process?" were dedicated more for the MedTech students but students of MSB were 75% and MedTech students 25% as shown in the below figure.

#### **Highered event info sessions**

#### **Meet our Highered Ambassadors**

Roua Alouini MBM student

Selim Zerelli MedTech student

Zeineb Toumi UPM student

This year, they held three information sessions to learn more about the platform and how to use it effectively.

For our Alumni and students, our platform must provide better chances.

The job openings are announced on Linkedin and by email.

- Club fair: (6th of October) The open-door journey that encompasses the opportunities of joining clubs in SMU community. Thanks to the collaboration of the student life, we were successfully able to have a stand on campus as for to explain our purpose and to provide the notoriety of the organization.
- Info sessions: (2nd,5th, and 9th of November) This info sessions were held within the campus to aim that all the students register through the platform and benefits from the opportunities offered by SMU and Highered communities.
- Job fair: (17th of November) A golden opportunity that made us connect with local and international companies in which we shared our mission and vision to students from all over the country due to the openness of the campus to all the visitors thanks to the values that the SMU career center is working under. 100+ students were registered on the platform on that day. Unfortunately, this opportunity was only valid for SMU students but following the hard work, Highered is now open to collaborate with other universities and elect ambassadors
- ExpressFM radio passage to highlight the job fair point which will be great for our notoriety as if we were responsible in making the changes!
- GetHigheredThursdays: (25th of November) Consists of a career talk live on Instagram with Dr. Amber Wigmore Alvarez was a great opportunity to discuss our engagements and future vision of our professional career.
- Mouth to ear share of the opportunities within the platform.

### **External Events**

Not only organizing events on campus for our students & alumni, but also, we collaborated on too many external events from national as well as international partners. Below you find a resume of all these events.

# 1- Impact assessment -Enhancing the impact of a business school during covid-19

Business Schools, like all other sectors of society, are adapting to life under the pandemic and reshaping their strategies and organizational structures to develop robust and resilient systems. During this period, business schools will be under increasing demand to show their impact and sustainably keep pace with the "new normal". It is important that schools understand, now, more than ever, the strategic value in assessing, measuring and analyzing impact. Dr. N. R. Parasuraman, Director SDMIMD and Prof. Sherif Kamel, Dean, American University in Cairo, will address from a regional perspective, their specific experiences, challenges, and insights into the impact assessment process, particularly in pivoting during a period of crisis. Let's learn together how to transform challenges into opportunities to maximize the impact. The webinar is free to all EFMD GN members. EFMD GN is also offering as an exclusive opportunity,

### 2- Impact Partner Samsung Fast Track | Info Session

SFT is an intensive 4-week program, started by Samsung Electronics Tunisia

(SETN) and implemented by Impact Partner (Yunus Social Business Network).

- An opportunity to meet potential investors
- Huge networking opportunities
- A chance to receive one of 3 cash prizes of 40K in total
- An opportunity to receive capital investment up to 200K
   TND

The 5th edition will take place in November 2021

### 3- Crowdfunding training-RedStart Tunisia

As part of its Red'Innov program implemented in partnership with Expertise France with the support of the European Union, Redstart Tunisia in partnership with the international network FPAM - Participatory Finance in Africa and the Mediterranean - is launching a series of training (free!) to promote crowdfunding and contribute to the development of this new financing mechanism being launched in Tunisia. The 1st training is intended for future crowdfunding platform leaders, it will be held in Tunis on October 26, 2021, at the Redstart Tunisia premises for one day and will be led by Mr. Thameur Hemdane, crowdfunding pioneer in Africa. He founded and managed crowdfunding platforms, Afrikwity and Cofundy, dedicated to the financing of innovative projects in Africa. He is also the co-president of the FPAM "Financement Participative Afrique et Mediterranee" federation. The goal of this training is to enable future leaders of crowdfunding platforms in Tunisia to take ownership of the issues and to fully understand the professions, constraints and opportunities of such an activity in the Tunisian context.

The training is composed of 5 parts:

Crowdfunding: challenges and funding methods

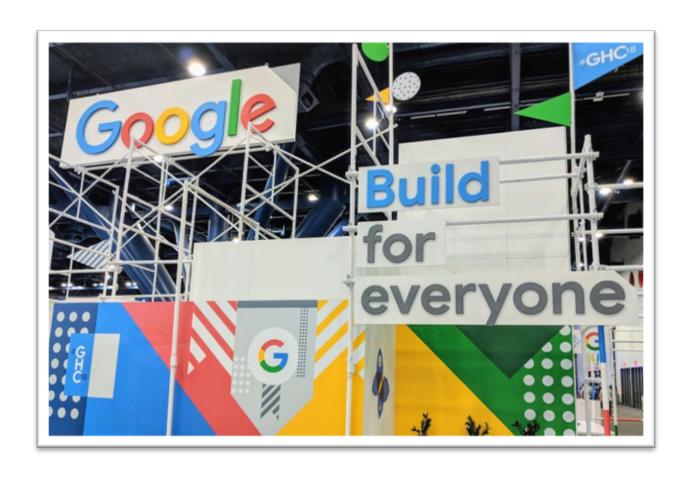

Panorama of Crowdfunding in the world, in Africa and in Tunisia

Challenges of Crowdfunding regulation in Tunisia Professions of crowdfunding platforms

Articulation of crowdfunding platforms and the financing ecosystem

### 4- Google virtual career fair

### 9- Schneider Global Supply Chain career fair

It is a global career fair available to all time zones. Schneider Electric offers various campus programs to students and graduates, a wide variety of opportunities where you are empowered and learn and grow. There's no excuse for you to miss the event!

#### Event highlights:

- Early career sharing from current employees (Includes live Q&A!)
- Smart Factory Tour (Live demo!)
- Sustainable Supply Chain sharing

## **Corporate Partnerships**

To ensure its mission, the CAC signed partnerships with national, multinational and international organizations to provide internships, job opportunities and regular connections to the job market to our students and Alumni; The SMU career center provides its partners with a wide range of benefits

## **Employability Impact**

In the SMU Career Center, we always try our best to find opportunities not only for our students, but also for our Alumni.

We are constantly searching for national & international opportunities to share with them.

Since June 2021 till present, the Career & Alumni Center posted:

- 143 Summer Internships
- More than 55 Capstone Projects (MedTech)
- 34 Internships
- 75 International internships
- More than 110 M2 Internships (MSB)
- Around 398 national job opportunities
- 205 International Job opportunities
- 1,020 opportunities in Total to boost our community's professional growth!

### **SMU Incubator 1st Cohort reunion**

As the 1st Cohort of the SMU incubator continues its entrepreneurial journey and its members love to catch up from time to time to spend quality time, With Mr. Ridha Mahjoub, we took the initiative to organize a cooking show last Wednesday, December 22nd on learning how to prepare fresh Italian pasta. We offered participants various workshops to learn how to cook good Italian dishes or discover new savory or pastry recipes, and discover, learn, and savor delicious recipes in a friendly, dynamic and gourmet atmosphere.

This experience took place at the Maghreb Institute of Management and Tourism.

It was a memorable experience, and we are thankful to everyone who made it, and brought with them their energy and good humor, and looking forward to more reunions,
